

HandyApp Smartphone Application

Installer's Pocket Assistant

Our new HandyApp smartphone app includes a practical set of tools for assisting installers while installing RISCO Group's intrusion systems.

Using the app, you can extend product warranties, gain access to installation manuals, use power consumption calculators and benefit from handy sales tools for presenting to prospective customers. You can also seamlessly open a service request by phone or email.

HandyApp Smartphone Application

Handy Installation Information

Need help with installing a new product? Simply scan the QR code to directly access the installation manual.

Warranty Activation

Want to maximize a product's warranty? Simply scan its QR code for instant warranty activation. You can also check the FAQs and other documents related to the product.

Handy Support

Need immediate assistance? Initiate a service call or send a service request email simply and directly using the app.

Handy Calculators

Want to shorten your installation time? Use our handy tools including power consumption calculator and backup battery size calculator.
